Objective

Aspiring Software Engineer skilled in React.js with a passion for building scalable and high-quality web applications. Eager to contribute to dynamic engineering teams by writing clean, efficient code and continuously learning in an agile environment.

Education

B.E. Computer Science and Engineering – Dr. Mahalingam College of Engineering and Technology, Pollachi (2026) | CGPA: 8.2

Technical Skills

Frontend: React.js, HTML5, CSS3 | Programming: JavaScript, Java | Tools: VS Code | CS Fundamentals: OOP, Data Structures & Algorithms, Problem Solving

Projects

Weather Forecast App – React.js

Developed a responsive weather application using React.js and REST APIs to display real-time weather data such as temperature, humidity, and conditions. Implemented React Hooks for state management and API handling.

To-Do List App – React.js

Created a dynamic task manager with add, delete, and complete features using React Hooks, focusing on UI design and state handling.

IoT Smart Home Automation

Engineered a home automation system using NodeMCU and sensors to improve home control and security.

Internship

Cloud Computing Intern – Gateway Solutions (June 2024 – July 2024): Assisted in deploying scalable cloud infrastructure using AWS services and optimized resource utilization.

Certifications

The Joy of Computing using Python – NPTEL | Soft Skills Certification – NPTEL
